- From the *SOGI:Acceptance R Us club* - Today is "Pink for Leelah" day. Leelah Alcorn was a transgender girl living in Ohio who felt unsupported and hopeless; she died by suicide in 2014. Shortly afterward, people began painting their nails pink on Jan 6 to remember Leelah and to show support for all transgender people. Many of our club members have painted their nails for today, we welcome you to paint yours as well and also to think about what you can do to make the world safer for people who are transgender.
