

Gordon Head Middle School

Friday

April 28, 2023

- The gathering space is open to grade 8s at lunch break.
- Lego club meets in the library at lunch today.
- Track and field practices will begin at lunch and after school next week. Please stay tuned to the announcements and talk to your PE teachers to see if you have reached the minimums to be able to participate in the UVic track meets for our school. There will be meetings and practices starting on Monday.
- With our weather improving and more students going outside to use school balls and other equipment, it will be important for that equipment to be used properly. Some footballs, soccer balls and volleyballs have been given out to advisory classrooms. If you are playing games where the ball goes high, please refrain from playing close to the school. Balls are ending up on the roof quite often. We have limited amounts of equipment and there is no staff authorized to go on the roof to retrieve it. What lands on the roof stays on the roof until the wind shows mercy. Also, students are not to take and use indoor balls outside. We need those items for PE classes this year and next. Please ask a staff member for permission and **ONLY** take outdoor balls outside.
